- ⌘ PROCUREMENT SERVICE/ MATERIAL & EQUIPMENT SUPPLY
- ⌘ AD-HOC SERVICES
- ⌘ EPCI - OIC - DECOMMISSIONING

OPERATION & MAINTENANCE FPSO/FSO/FPU/MOPU

We pride ourselves as the leading and reliable operator of FPSO/FSO units in Vietnam

FPSO RUBY PRINCESS
Unit type: FPSO/Converted
Client: Petronas Carigali Vietnam Limited (PCVL)
Field: Ruby, Block 01 & 02
Storage capacity (bbls): 1,000,000
Max throughput: 35,000 bopd
Scope of Work:

- Operation & Maintenance (Average uptime: 99.87%)
- Disconnection & Demobilization

FSO PTSC BACH HO
Date of first oil: November 8, 2010
Unit type: FSO/New Built
Client: Vietsovpetro Joint Venture
Field: Bach Ho, Block 09-1
Storage capacity (bbls): 1,000,000
Scope of Work:

- Operation & Maintenance

Transferred to Client in 09/2011

FPSO RUBY II
Date of first oil: June 9, 2010
Unit type: FPSO/Converted
Client: Petronas Carigali Vietnam Limited (PCVL)
Field: Ruby/Diamond/Topaz, Block 01 & 02
Storage capacity (bbls): 600,000
Max throughput: 45,000 bopd
Scope of Work:

- Operation & Maintenance (average uptime: 99.73%)
- OIC services

FSO PTSC BIEN DONG 01
Date of first condensate: August 7, 2013
Unit type: FSO/New Built
Client: Bien Dong POC (BDPOC)
Field: Hai Thach & Moc Tinh, Block 05-2 & 05-3
Storage capacity (bbls): 350,000
Scope of Work:

- Operation & Maintenance (average uptime: 100.00%)

FPSO PTSC LAM SON
Date of first oil: June 6, 2014
Unit type: FPSO/Converted
Client: Lam Son JOC (LSJOC)
Field: Thang Long & Dong Do, Block 01/97 & 02/97
Storage capacity (bbls): 650,000
Max throughput: 18,000 bopd
